As a result of Ms. Craig's Class B holdings, it appears you may be a "controlled company." Please advise. To the extent you will be a "controlled company" following the completion of this offering, please revise your cover page to disclose your status as a "controlled company", disclose the identity and beneficial ownership percentage of your controlling shareholder and provide a cross-reference to a longer discussion of the exemptions available to you, and those on which you intend to rely, as a "controlled company."**

RESPONSE: The Company has revised the Amended Draft Registration Statement to address this comment.

We also note that Mr. Silverman, your CFO, is currently an executive officer of several other entities. In light of their involvement with other businesses and activities, please specify the minimum amount of time per week that Ms. Craig and Mr. Silverman devote to your company. If Ms. Craig or Mr. Silverman works less than full time for the company, please include a risk factor indicating the amount of time that she or he dedicates to the company and discuss any related material risks to the company and investors. Consolidated Statements of Operations, page F-4

10. **We note you present a measure of gross profit on the face of your Consolidated Statement of Operations. We further note that it appears all your depreciation expense is currently classified within general and administrative expense. Please tell us how your presentation complies with the guidance in SAB Topic 11.B. In this regard, if you do not allocate any depreciation and amortization to cost of revenue, you should remove the gross profit subtotal from your statements of operations and relabel the cost of revenue line item to indicate that it excludes depreciation and amortization.**

RESPONSE: We have revised the Amended Draft Registration Statement to address this comment by including depreciation of fixed assets used in production relative to the reduction in revenue during the same period. We believe our presentation complies with the guidance in SAB Topic 11.B since it requires that in order to avoid placing undue emphasis on “cash flow,” depreciation, depletion and amortization should not be positioned in the income statement in a manner which results in reporting a figure for income before depreciation.

General, page F-7

11. **You refer throughout the filing to the importance of your research and development projects on the future success of your business. Please revise to disclose the total research and development costs charged to expense for each period presented. Refer to ASC 730-10-50-1.**
