#### Forward Looking Statement

This presentation contains forward-looking statements. In addition, from time to time, we or our representatives may make forward-looking statements orally or in writing. We base these forward-looking statements on our expectations and projections about future events, which we derive from the information currently available to us. Such forward-looking statements relate to future events or our future performance, including: our financial performance and projections; our growth in revenue and earnings; and our business prospects and opportunities. You can identify forward-looking statements by those that are not historical in nature, particularly those that use terminology such as “may,” “should,” “expects,” “anticipates,” “contemplates,” “estimates,” “believes,” “plans,” “projected,” “predicts,” “potential,” or “hopes” or the negative of these or similar terms. In evaluating these forward-looking statements, you should consider various factors, including: our ability to change the direction of the Company; our ability to keep pace with new technology and changing market needs; and the competitive environment of our business. These and other factors may cause our actual results to differ materially from any forward-looking statement.

Forward-looking statements are only predictions. The forward-looking events discussed in this presentation and other statements made from time to time by us or our representatives, may not occur, and actual events and results may differ materially and are subject to risks, uncertainties and assumptions about us. We are not obligated to publicly update or revise any forward-looking statement, whether as a result of uncertainties and assumptions, the forward-looking events discussed in this presentation and other statements made from time to time by us or our representatives might not occur. See other factors described more fully in the section entitled ‘Risk Factors’ in Sidus Space’s Annual Report on Form 10-K for the year ended December 31, 2024, and other periodic reports filed with the Securities and Exchange Commission. Past performance is not indicative of future results. There is no guarantee that any specific outcome will be achieved. Investments may be speculative, illiquid and there is a total risk of loss.

This presentation highlights basic information about us and the proposed offering. Because it is a summary, it does not contain all of the information that you should consider before investing. We have filed a registration statement (including a prospectus supplement and the accompanying prospectus) with the SEC for the offering to which this presentation relates. Before you invest, you should read the prospectus supplement and the accompanying prospectus in the registration statement (including the risk factors described therein) and other documents we have filed with the SEC for more complete information about us and the offering.

You may access these documents for free by visiting EDGAR on the SEC Web site at <http://www.sec.gov>. The preliminary prospectus supplement is available on the SEC Web site at <http://www.sec.gov>. Alternatively, we or any underwriter participating in the offering will arrange to send you the prospectus if you contact ThinkEquity, Prospectus Department, 17 State Street, 41st Floor, New York, New York 10004.

This presentation shall not constitute an offer to sell, or the solicitation of an offer to buy, nor will there be any sale of these securities in any state or other jurisdiction in which such offer, solicitation or sale would be unlawful prior to the registration or qualification under the securities laws of such state or jurisdiction. The offering will only be made by means of a prospectus supplement and related base prospectus.

## Sidus Space: A Multi-Domain Technology Company Powering Space and Defense

## Mission-Driven. End-to-End. Trusted.

**Full-Stack Capabilities:** Hardware, software, and data services in-house

**Defense-Grade Agility:** Rapid design, production, and deployment

**Mission-Aligned Solutions:** Supporting government priorities across defense, transportation, and space

**Proven Execution:** Trusted partner for NASA, DoD, and commercial aerospace clients

Sidus is at the intersection of **defense modernization**, **long term infrastructure initiatives**, and **commercial innovation**, delivering core technologies that support:

- National defense priorities including resilient, secure satellite systems
- Modernization of aviation and critical infrastructure
- Real-time data delivery to enhance situational awareness and mission success

*As demand for space-enabled defense and infrastructure systems accelerates, Sidus Space is strategically positioned to convert market shifts into shareholder value.*

NASDAQ: SIDU

5

**Company Overview:** Space and defense technology company with Decades of Space and Defense Heritage

### Mission: Space Access Reimagined®

- Enabling a future-ready foundation for the new space economy
- Committed to rapid innovation
- Optimization of space system and data collection performance

**Locations:** Proximity to Eastern and Western launch sites  
Kennedy Space Center, Cape Canaveral Space Force Station, Vandenberg Space Force Base

#### East Coast

**Headquarters:** Merritt Island, FL

**Manufacturing Facility:** Cape Canaveral, FL

#### West Coast

El Segundo, CA

### Products and Services: Adaptable, cost-effective solutions

- AI-driven space-based data solutions
- Satellite manufacturing and technology integration
- Mission planning and management operations
- AI/ML products and services
- Space and defense hardware manufacturing

NASDAQ: SIDU

6

## Leadership and Key Personnel

Carol Craig

Chief Executive Officer & Founder

Adarsh Parekh

Chief Financial Officer

Mark Mikolajczyk

Chief Operations Officer

Valerij Ojdanic

Chief Technology Officer

John Roy

Chief Human Resources Officer

Patrick Butler

SVP Mission Operations & PLM

NASDAQ: SIDU

7

## Integrated Ecosystem: Sea, Land, Air, and Space

### FORTIS™ VPX AI-powered Command & Data Handling Module

Designed to deliver high-performance processing in the most demanding environments

#### Sea

Submarines, surface ships, underwater drones

#### Air

Aerial drones, ballistic missiles, commercial and civil aircraft

#### Land

Command and control (C2) network, electronic warfare (EW), intelligence, surveillance, and reconnaissance (ISR), unmanned ground vehicles

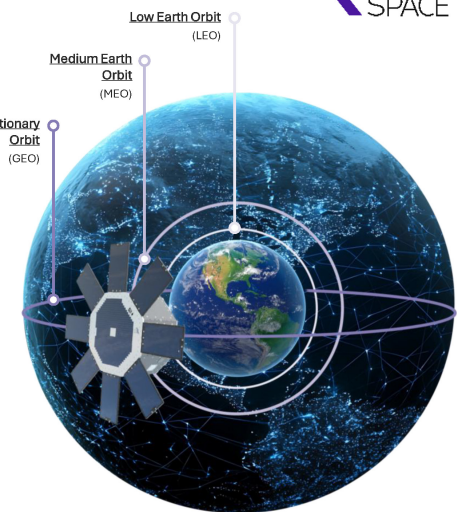

#### Space

Counterspace and defense operations, satellites, situational awareness

### LIZZIESAT™

**Satellite Platform**  
A multi-mission satellite for a multi-mission constellation™

### ORLAITH™ ARTIFICIAL INTELLIGENCE ECOSYSTEM

**AI-powered Ecosystem**  
AI capability across all domains and orbits

NASDAQ: SIDU

8

NASDAQ: SIDU

9

## LizzieSat®: Expansive and Scalable Data Capabilities

## Differentiated Global Data Collection and Fusion

## Software-Defined Satellites (SDS)

Multi-spectral imaging and proprietary software-defined capabilities enable rapid, on-orbit adoption for multiple end-uses

## Subscription-based, Recurring Revenue Model

Contracts in place for AI and data with expectations for increasing demand post launch

## Diverse Customer Base

Serves government, defense, intelligence and commercial sectors

LizzieSat® micro-constellation satellites also enable high-quality, space-to-space data relay

## Healthy, Sustainable Margins

Multiple sensors collect data simultaneously, supporting resale to various customers across missions

Multiple pricing tiers based on the data access span: archived, standard, enhanced (combining multiple sensors), and priority

Highly differentiated, **AI-powered** data processing capabilities enabling cost-effective data collection, fusion and transfer

Recurring software-like revenue

Low data acquisition costs

Potential for 75-85% margins

Daily data transfer from 100-1,000GB

NASDAQ: SIDU

10

## AI-Driven On-Orbit Intelligence

### Cutting Edge Computing

Performs trillions of operations per second

Minimizes downlink costs while significantly increasing response times for critical in-orbit events

Produces rapid response times providing actionable intelligence and reliability

### Sensor Data Processing

Processing capabilities for detailed Earth Observation (EO), digital data storage, telecommunication

### Autonomous Satellite Operations

Enables satellites to operate autonomously, streamlining mission tasks

### Cloud Computing

Facilitates cloud-based data for space applications

### Space Situational Awareness

Enhances space surveillance and awareness

### Data Storage and Compression

Stores and compresses data on-orbit

### Enhanced Cybersecurity

Implements advanced encryption technology and other cybersecurity protocols at the point of data collection

NASDAQ: SIDU

11

## Rich Program Heritage, Diversified Customer Base

**13+ Years** of industry-leading, high-quality commercial, military, and government manufacturing experience

**AIRBUS**

**ASPINA**  
Engineered to inspire

**HEO**

**INTUITIVE**  
MACHINES

**JACOBS**

**NORTHROP GRUMMAN**

**PARSONS**

**Peraton**

**CACI**

### Strategic Vertical Integration

#### Scalable and Streamlined Manufacturing

Flexible, efficient production cycles with capabilities to serve internal and external end-users

#### Existing, Proven Infrastructure

35,000 sq. ft. facility located in Cape Canaveral, Florida on the Space Coast

#### Controlled Products and Services Quality

Space qualified Commercial Off-the-Shelf (COTS) components and capability to manufacture our own space supply chain products

#### Flexible Technology Integration

Modular design, enabling rapid integration of variable sensors and technology

#### Lower Costs

Fixed costs spread across multiple customers and capabilities

#### Full Stack Space Services

Includes state-of-the-art Mission Control Center (MCC)

NASDAQ: SIDU

13

### Unmatched Capabilities: Vertically Integrated Solutions

### Efficiency

#### Force Multiplier for Our Clients through Vertically Integrated Scalable Solutions

- Streamlined operations and lean methodologies
- Seamless integration
- Proprietary hardware, software, and service innovations
- Existing infrastructure with capacity for expansion
- Versatile bus platform

### Capabilities

#### Expansive Capabilities Across LEO, Lunar, Mars, and Beyond

- Advanced proprietary AI/ML-enabled computing
- Multi-mission constellation
- Comprehensive end-to-end space services
- Accomplished leadership with over a century of combined space industry experience

### Technology

#### First Launch Success

- Hybrid 3D printing technology
- Integrated multi-sensor data collection capabilities
- Improved processing and delivery speed for data relay
- Adding VPX technology on future LizzieSat® launches
- Orlaith™ AI platform

NASDAQ: SIDU

14

## 2025

### Satellite Milestones

Launched LizzieSat® - 3, March 14, 2025, which featured data integration with Sidus Orblith™ enabling on-orbit data processing for critical applications such as Space Situational Awareness (SSA), maritime monitoring, and disaster response

Multi-purpose, multi-mission, micro-constellation

Space-to-Space data relay module

Lonestar - first lunar satellite opportunity

LS-1 completed initial NASA ASTRA mission and signed a follow up contract to continue through the life of the satellite

### Product/Partnership

Focus on core pillars of Sidus: Technology, AI and Space

Fortis™ VPX in production & entering the market

ALEM FlatSat (Adaptable LizzieSat® Engineering Model) Lab-based integration and test-bed platform

In-orbit demonstrations and algorithms that provide near real-time, autonomous Intelligence, Surveillance, and Reconnaissance (ISR) tasking and execution

ML2 enclosure deliveries

Navy trainer delivery

Sidus International Space Center

## 2026

### Satellite Milestones

LizzieSat® - 4 & 5 gen-1 platform with software-defined systems

LizzieSat® - 6 gen-2 platform

LizzieSat® Lunar – full production

The Netherlands Organization HemiCat integration – a high-efficiency miniature communications laser terminal

### Product/Partnership

VPX/SOSA™ LizzieSat® flight heritage

Software defined multi-spectral imagery integration

In-orbit demonstrations and algorithms that provide near real-time, autonomous Intelligence, Surveillance, and Reconnaissance (ISR) tasking and execution

**Actively pursuing multiple international and lunar opportunities alongside major government infrastructure projects across all business segments**

NASDAQ: SIDU

15

## Financial Overview: Strong Foundation for Scalable, Strategic Growth

### Key Metrics & Momentum

**Operating Leverage:** Even at an early stage, Sidus has developed an expansive platform and backlog while maintaining stable operating expenses

**Poised for Growth:** Third satellite launch in under a year, with programs like Lonestar indicating strong near- and long-term revenue potential

**Strengthened Balance Sheet:** Raised \$37MM in 2024, positioning Sidus to pursue high-impact market opportunities

**Cost Efficiency:** Total cost per satellite has dropped significantly; LizzieSat®-3 is nearly 50% more cost-efficient than LizzieSat®-1

**Strategic Flexibility:** Healthy cash position and low leverage equip Sidus to scale quickly into emerging national security and infrastructure initiatives

Sidus continues to strengthen its position through disciplined growth, demonstrated heritage, expanded contracts, and a vertically integrated model designed to scale with mission-critical demand.

17

### SIDU: Unique Opportunity to Invest in the Emerging Space Ecosystem

#### Heritage and Innovation

- Experienced leadership team
- Recognized innovation with 12 patents issued and 12 pending
- Highly skilled, forward-thinking operations and engineering teams
- Proven track record of on-orbit delivery and mission success

#### Near-Term High Growth Opportunity

- Successfully launched LizzieSat®-1 and LizzieSat®-2 in 2024, and LizzieSat®-3 in March 2025
- Multiple LizzieSat® satellites planned for on-orbit operations within 24 months
- Multi-launch / multi-year agreement with SpaceX enabling steady launch cadence
- Scaled and predictable growth plan

#### Differentiated, Comprehensive Offering

- AI-driven space-based data solutions
- Satellite manufacturing and technology integration
- Mission planning and management operations
- AI/ML products and services
- Space and defense hardware manufacturing
